React, Next.js (Pages & App Router), TypeScript, JavaScript (ES6+), Tailwind CSS, Zustand, Framer Motion, Component Architecture, Performance Optimization, Accessibility

### Backend & Integrations

Next.js API Routes, REST APIs, GraphQL, Stripe API & Webhooks, Clerk Authentication, Hygraph (Headless CMS), Nodemailer, Content-driven architecture, Incremental Static Regeneration

### Tooling

Git, Figma, Vercel, Stripe CLI, FFmpeg (video optimization), Bash, SEO Fundamentals, PWA Configuration

## LANGUAGES

English – Advanced, Ukrainian – Native

## EXPERIENCE

### Frontend Web Developer

Designing and building modern web applications and digital products for small businesses, with a focus on performance, usability, and scalable frontend architecture.

**NOISM Academy** – Learning Platform ( React, Next.js, Stripe, Clerk, GraphQL, Zustand, Hygraph) 2024 – Present

- Designed and developed a full-stack learning platform for selling video courses and managing digital education products.
- Implemented Stripe payment system with webhook-based purchase validation.
- Built authentication and protected routes using Clerk middleware and webhooks.
- Designed CMS-driven architecture with Hygraph and GraphQL.
- Implemented transactional email system using Nodemailer.

**NOISM Hairculture** – Business Website (React, Next.js, Tailwind, Firebase) 2023 – 2024

- Built multi-page business website with multilingual support and custom typography.
- Integrated Firebase for backend form handling and business workflow automation.
- Implemented SEO best practices including structured metadata, sitemap, and OpenGraph support.
- Developed CLI-based media optimization workflow using ImageMagik and Bash to automate image processing to convert, crop, and resize in batches.

**Forecast Storm** – Weather Dashboard (React, Next.js, Tailwind 4, Weather APIs) 2022 – Present

- Built weather dashboard consuming third-party REST APIs.
- Built modern mobile-friendly and responsive UI.
- Implemented PWA capabilities allowing installation on mobile devices.

## EDUCATION

State University of Information and Communication Technologies (Kyiv, Ukraine) 2006 – 2011  
Master of Engineering in IT, Networks and Telecommunications
